

Komfi Rider Marlin Scooter

Everyday Freedom

At Komfi Rider, we believe mobility is about more than getting from A to B — it's about freedom, independence and enjoying everyday life.

As a family-run UK business, we design and manufacture our own range of electric scooters with comfort, quality and practicality at the heart of everything we do. With a deep understanding of the unique demands of the UK environment, our scooters are built to handle everyday conditions with confidence and reliability.

Our Marlin scooter has been carefully developed to offer reliable, easy-to-use mobility solutions that help you stay active, confident and connected to the moments that matter most.

Built with a lightweight aluminium frame, the Marlin remains easy to lift and transport, while simple assembly and disassembly make it a truly car-friendly mobility solution.

Designed & Manufactured in the UK

Lightweight aluminium chassis for easy lifting and transport

Low-profile wheel arches for increased legroom and a more comfortable ride

Komfi Rider Marlin 8 8mph Scooter

Quickly disassembles into manageable pieces

Lightweight Aluminium Frame

LED Front & Rear Lighting

As one of the most compact and lightweight 8mph scooters available, the Marlin 8 represents a new generation of design—combining portability with advanced features for everyday and longer journeys.

The Marlin 8 is designed to offer greater freedom and flexibility, combining a lightweight, easy-to-transport design with enhanced performance for both pavement and road use. With a top speed of 8mph, controlled by a simple high/low switch, you can easily adapt your speed to suit your surroundings, whether travelling indoors, on pavements or out on the road.

Maintaining the same compact size and lightweight aluminium construction as the Marlin, the Marlin 8 remains easy to lift, transport and store, making it ideal for everyday use and travel.

Full front and rear suspension ensures a smooth and comfortable ride over a range of surfaces, while large wheels provide added stability on uneven terrain. For added safety and visibility, the Marlin 8 is equipped with full LED lighting and integrated indicators, making it suitable for road use with confidence.

Komfi Rider Marlin 4mph Scooter

Quickly disassembles into manageable pieces

Lightweight Aluminium Frame

Lightweight high capacity lithium battery

The Marlin 4mph scooter is designed to deliver everyday freedom, combining comfort, performance and practicality in a lightweight, easy-to-use design. Built to handle a range of surfaces including pavements, gravel, grass and uneven ground, it provides a smooth and stable ride wherever you go, supported by full front and rear suspension for added comfort.

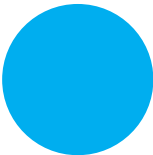

Designed with a wider footprint, the Marlin offers enhanced stability and confidence across a variety of ground conditions, helping you feel secure wherever your day takes you.

With a lightweight aluminium chassis, the Marlin is easy to lift, transport and store, making it ideal for both home use and travel. Simple, intuitive controls and smooth operation allow you to move with confidence, while the spacious swivel seat, supportive cushioning and adjustable features ensure lasting comfort throughout the day.

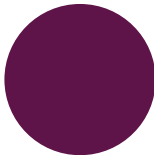

Designed for convenience, the Marlin features flexible on- or off-board battery charging and effortless one-handed assembly and disassembly. A choice of puncture-proof solid tyres or soft ride pneumatic tyres allows you to tailor your scooter for comfort, durability or peace of mind.
